Collected Knowledge & Wisdom on

Financial Modeling Prep

Provides:

This API provides a plethora of financial data including
- Company financial data
- Real time prices and historical data on
    - ETFs
    - Commodities
    - Mutual funds
    - Indices
    - Stocks

Key Provisioning: **Pain factor** (*0=ezpz...5=nightmare*): <mark>0</mark>

- There is no need for a key to use this API though you have to use a special link format they provide on their API documentation

Quotas:

- None though you can only request data for at most 3 companies at a time.

The Good:

- Very wide variety of data you can get.
- No need for a key
- Free

The Bad:

- Data doesn't go very far back
